Gehwol

Everything for the well-being of the feet.

GEHWOL Balm for dry skin 1124705

Effective ingredients

Caring emulsion base of gentle skin lipids with lanolin, oils of rosemary and lavender, menthol, ferns, climbazole, aloe vera

Application

For the care of dry skin on the feet, massage the cream in once or twice a day.

Effects of product

The fatty ingredients and aloe vera make dry skin smooth and elastic. Oils of rosemary and lavender promote blood flow to the skin. Menthol provides freshness.

Also suitable for diabetics
Dermatologically tested

GEHWOL Balm for normal skin 1124205

Effective ingredients

Skin-friendly, caring and non-fatty emulsion base with oils of jojoba, rosemary, lavender, menthol, climbazole and aloe vera.

Application

For the care of normal foot skin, massage in the cream once or twice daily.

Effects of product

Maintains skin elasticity. Oils of lavender and rosemary promote blood flow to the skin. Menthol provides freshness. Helps to protect against fungal infections of the feet and nails and has a deodorising effect.

Also suitable for diabetics
Dermatologically tested

GEHWOL Everything for the well-being of the feet.

GEHWOL Warming Balm 1124405

Effective ingredients

Rich oil in water emulsion with lanolin, glycerine, avocado oil, aloe vera, oils of lavender and rosemary, extracts of ginger and paprika, camphor, climbazole

Application

Treat the feet generously with the cream once or twice a day. A hot foot bath is recommended beforehand.

Effects of product

The essential oils of lavender and rosemary, as well as extracts of ginger and paprika and camphor, stimulate blood flow. The water in oil cream base supports the effect by delaying the evaporation of moisture. The skin of the feet becomes elastic and smooth. Helps protect against fungal infections of the feet and nails.

GEHWOL Fresh Balm 1123705

Effective ingredients

Alcohol, skin friendly cream base, urea, menthol, essential oils of mint, eucalyptus, lavender, rosemary, mountain pine, orange, Climbazole.

Application

Rub into hot and burning feet once or twice a day.

Effects of product

The cream gel contains alcohol and after it has been applied to the skin it provides immediate freshness. Oils of mint, eucalyptus and menthol continue the feeling of freshness. Urea also has a cooling effect and maintains skin elasticity. Lipid replacements also help to keep the skin smooth. Climbazole protects from fungal infections of the feet and nails.

Also suitable for diabetics
Dermatologically tested

GEHWOL Everything for the well-being of the feet.

GEHWOL Leg Balm 1124307

Effective ingredients

Hamamelis, panthenol, bisabolol, allantoin, menthol, guaiazulene, climbazole

Application

Rub cream into the legs and feet once or twice a day.

Effects of product

Healing herbal extracts of hamamelis, chamomile and horse chestnut have a beneficial effect on skin disorders and inflammation and help to smooth the skin. The preparation deodorises and refreshes. Climbazole helps prevent fungal infections, itching and blisters between the toes. A gentle massage with GEHWOL leg balm strengthens the veins. Regular application helps to prevent dry skin, skin disorders, discolouration and premature aging of the skin. Guaiazulene has an anti-allergic effect.

Also suitable for diabetics

GEHWOL Caring Footdeo 1123808

Effective ingredients

Alcohol, urea, panthenol, oils of eucalyptus, rosemary, lavender, orange, mountain pine, farnesol, allantoin, bisabolol, undecylenic aminopropyl trimonium metho-sulfate (UTM)

Application

Spray the feet well once or twice a day and rub in if necessary.

Effects of product

For rapid and comfortable foot care. Alcohol refreshes and deodorises. Ideal for sport and as protection after visiting swimming pools or saunas. Looks after skin and nails. The essential oils stimulate blood flow and have a deodorising effect. Farnesol is a deodorant. Allantoin, bisabolol and panthenol promote healing. Urea softens hard skin. UATM helps to protect against athletes' foot.

Gehwol Everything for the well-being of the feet.

GEHWOL Rosemary Bath Salts 1125222

Effective ingredients

Oil of rosemary, base of bath salts, triclosan, chloroxylenol.

Application

Dissolve the contents of a sachet in 3-4 litres of hot water. Soak the feet in the solution for approximately 15 minutes.

A full bath needs 2-3 sachets of GEHWOL bath salts.

Effects of product

Cleansing foot bath with the natural power and stimulation of oil of rosemary. Triclosan protects against foot odours and chloroxylenol helps to protect against fungal infections.

GEHWOL Foot Bath 1124405

Effective ingredients

Sodium carbonate, emollients, oils of rosemary, lavender and thyme, camphor, eucalyptus oil.

Application

Add 1 dessert spoonful or 1 sachet of GEHWOL foot bath to 3-4 litres of hot water and soak the feet in it for approximately 15 minutes.

Effects of product

GEHWOL foot bath refreshes and stimulates the feet with oils of rosemary and lavender. For painful, tired, burning, sweaty feet. Sodium carbonate softens hard skin, corns and calluses. Emollient. Oil of thyme has a disinfectant action.

Also suitable for diabetics
Dermatologically tested

GEHWOL Cream Foot Bath 1124916

Effective ingredients

Liquid foot bath base containing oils of lavender, menthol and emollients.

Application

Add 2 teaspoons of GEHWOL cream foot bath to 3 - 4 litres of hot water and soak the feet for 10-15 minutes.

Effects of product

The liquid bath concentrate is easily dispensed and makes a pleasantly gentle and fragrant foot bath. The lipid content of the skin of the feet is replenished at the same time. Contains lavender oil to promote blood flow, menthol to refresh and paraben to disinfect.

Gehwol Everything for the well-being of the feet.

GEHWOL med Foot Powder 1140906

Effective ingredients

Talcum, tapioca starch, zinc oxide, clotrimazole, bisabolol, triclosan

Application

Sprinkle powder on feet and in stockings and shoes daily.

Effects of product

Helps keep feet dry by absorbing sweat. Talcum and tapioca starch make skin feel pleasantly smooth. Zinc oxide also lends skin a pleasant feel; it also has antiseptic properties. The active substance in chamomile is bisabolol. This promotes healing and has a positive effect on damaged and tired skin on the feet. Clotrimazole helps protect against fungal infections and triclosan has a lasting deodorising effect.

GEHWOL med Deodorant Foot Cream 1140705

Effective ingredients

Manuka oil, jojoba oil, aloe vera, zinc oxide

Application

Apply once or twice daily

Effects of product

The combination of manuka oil and zinc oxide has proved to be especially effective for foot hygiene because of its wide-ranging effect and gentleness to the skin. It is a powerful deodorant. The effect of aloe vera is bacteriostatic, anti-inflammatory, regenerative and moisturising. Jojoba oil supports the natural skin functions. With regular application, the mildly fatty cream prevents foot odours, helps protect against fungal infections and softens the skin.

Also suitable for diabetics
Dermatologically tested

GEHWOL med Nail Softener 1140401

Effective ingredients

Medicated soap, bisabolol, ethanolamine

Application

Coat the nails daily.

Effects of product

Makes hard nails more flexible again and helps prevent them growing inwards. Softens hard skin beneath the nail and in the nail fold, so that it can be easily removed without pain. Bisabolol helps prevent redness and irritation.

Gehwol

Everything for the well-being of the feet.

GEHWOL med Lipidro Cream 1140805

Effective ingredients

Skin friendly treatment emulsion with avocado oil, sea buckthorn oil, urea, glycerine, algae extracts, allantoin, farnesol.

Application

Apply and rub into the skin of the feet or other areas of hard skin once or twice daily.

Effects of product

The tried and tested composition balances the hydrolipids of the skin. Dry skin becomes smooth and soft. Cracked and flaking skin disappears. The cream helps protect against itching and fungal infections. It is extremely economical to use, is absorbed quickly and does not contain any perfume.

Also suitable for diabetics
Dermatologically tested

GEHWOL med Salve for Cracked Skin 1140105

Effective ingredients

Lanolin, vaseline, medicated soap, panthenol, bisabolol, zinc oxide, eucalyptus oil, lavender oil, oil of rosemary, menthol, camphor

Application

Rub cream into dry or cracked skin once or twice daily. In resistant cases, apply thickly and cover with cloth and keep moist with a plastic bag if necessary.

Effects of product

Ointment for severe hard skin, or very cracked, dry or rough skin. Protects the skin and allows it to regain its natural elasticity and resistance. Helps protect against the symptoms linked with cracked skin and inflammation. Medicated soap, lanolin and vaseline soften hard skin quickly and keep it smooth. Bisabolol and panthenol help to clear up small skin cracks. The blood flow to the skin is stimulated by oils of eucalyptus, lavender, rosemary and camphor. Menthol cools and refreshes. Zinc oxide has a mildly disinfectant effect.

GEHWOL Everything for the well-being of the feet.

GEHWOL med Nail and Skin Protection Cream and Oil 1140301 / 1140201

Effective ingredients

Wheat germ oil, panthenol, bisabolol, clotrimazole

Application

Apply to damaged areas once or twice daily.

Effects of product

High quality ingredients such as wheat germ oil, panthenol and bisabolol care for the skin and the nails. Clotrimazole helps prevent athletes' foot. The appearance and flexibility of broken nails are improved. Helps prevent inflammation.

Also suitable for diabetics

Gehwol

Everything for the well-being of the feet.

GEHWOL Foot Cream 1124005

Effective ingredients

Medicated soap, vaseline, lanolin, talcum. Essential oils of eucalyptus, rosemary, lavender, thyme, chloroxylenol, menthol, camphor

Application

Apply GEHWOL foot cream approximately 1 mm thick to tired feet. Wear thick socks and strong footwear. Socks can be easily washed out in cold water.

Effects of product

Base ointment of medicated soap. Vaseline, lanolin and talcum. Effective protection against wounds, blisters and intertrigo. Keeps the skin of the feet smooth and elastic. Contains chloroxylenol and oil of thyme to deodorise, disinfect and help to protect from athletes' foot. Contains camphor to stimulate blood flow and menthol to refresh.

GEHWOL Extra 1124105

Effective ingredients

Potassium stearate, paraffin oil, lanolin, oil of rosemary, eucalyptus, lavender and thyme, camphor, menthol, triclosan, chloroxylenol

Application

Rub the cream into the feet once or twice daily.

Effects of product

For tired feet, chilblains, very sweaty feet, severe hard skin.

Softens dry skin. Helps protect against calluses and cracked skin.

Cream base made of soap, paraffin oil and lanolin softens hard skin. Essential oils and camphor promote blood flow and strengthen the skin. Cooling and refreshing effect from menthol. Triclosan is a deodorant, Chloroxylenol is a disinfectant and helps protect against athletes' foot.

Gehwol

Everything for the well-being of the feet.

GERLAN Hand Cream 2105009

Effective ingredients

Protective care emulsion with urea, jojoba oil, glycerine, tapioca starch, panthenol, aloe vera, bisabolol, triclosan, clotrimazole

Application

Use before and after each foot care treatment to protect the hands from drying out, cracked skin and germs such as bacteria and fungi that can be transmitted during contact with customers.

Effects of product

GERLAN hand cream has been developed so that reliable materials such as urea, aloe vera and glycerine will make and keep the skin smooth and the healing potential of bisabolol and panthenol will help to make the skin healthy again.

Triclosan and clotrimazole help to prevent the growth of pathogens. With regular application, the product provides all round protection for the skin on the hands.

GERLAN Nail Care 1125101

Effective ingredients

Wheat germ oil, vitamin E, bisabolol, undecylenic acid monoethanolamide

Application

Massage one to two drops into finger and toe nails mornings and evenings.

Effects of product

Makes broken and torn nails flexible again. Stimulates nail growth. Supports the treatment of fungal infections of the nails with bisabolol, the active substance in chamomile, and undecylenic acid monoethanolamide.
